**FOR IMMEDIATE RELEASE**

## **Free Online Glossary Launches**

*More than 3,400 Terms for Project Managers and Business Analysts*

**Arlington, VA USA – May 11, 2009** – For busy project managers and business analysts, quickly and easily looking up key terms, phrases and acronyms just became easier. ESI International announced today the launch of a free **Online Glossary**. Using the successful *Dictionary of Project Management Terms* by J. LeRoy Ward, PMP, PgMP, Executive Vice President at ESI International, as the base, this online reference tool makes the popular book's definitions of more than 3,400 terms available from any web-enabled device.

"LeRoy Ward proves himself to be the Noah Webster of project management," stated Carl Pritchard, PMP, EVP, Principal, Pritchard Management Associates in Frederick, Md., and a world-renowned author and consultant in project management. "He provides a comprehensive, clear, incisive assessment of the body of terms in project management, rich with both technical and idiomatic terms."

The online glossary covers traditional project management terms, acronyms and organizations, as well as broader business terms. Later this year, ESI will expand the tool to include business analysis terms for both requirements development and management as well as project management professionals.

With this free tool, seasoned practitioners and managers, as well as their successors, will be better equipped to navigate the ubiquitous language of project-speak. "The larger the field, the more terms are needed to operate within it," said Ward. "Adding an online element for PM and BA terms was a natural extension for speed, convenience and ongoing relevance."

The Online Glossary can be accessed, free, at [www.esi-intl.com/glossary](http://www.esi-intl.com/glossary).
